

****Title****

Upload an Asset in Mirrix (Documents)

1. Purpose

This guide shows you how to sign in to Mirrix, upload a new asset (Document), and finish by signing out.

2. Scope

Use this guide if you need to add (upload) a document asset in Mirrix using the web app. It's intended for any Mirrix user who has access to the Assets area.

3. Prerequisites

- A Mirrix user account (email/username and password)
 - Access to the Mirrix web app (example: `https://dev.mirrix.app`)
 - Permission to access ****Assets**** and upload files (if your organization restricts access)
 - The file(s) you want to upload available on your computer
 - A stable internet connection
-

4. Steps

Step 1 – Sign in to Mirrix

1. Open your browser and go to: `https://dev.mirrix.app/login`
2. On the login screen, enter your ****Email**** (if prompted).
3. Enter your ****Password****.
4. Click ****Login****.
 - Example screen items you may see:
 - ****LOGIN****
 - ****Email****
 - ****Password****
 - ****Forgot Password?****
 - ****Login****
 - ****or Sign in with Azure****
5. If your organization uses Microsoft sign-in, choose ****Sign in with Azure**** and follow the prompts.

****Screenshot label (if available):**** Login page

Step 2 – Go to the Assets page

1. In your browser, navigate to: `https://dev.mirrix.app/assets`
2. Confirm you are on the ****Assets**** page.

****Screenshot label (if available):**** Assets page

Step 3 – Start a new upload

1. On the Assets page, click **Upload**.
2. If you see an option screen, click **OR** (if presented as part of the upload flow).
3. Choose the upload location or grouping:
 1. Click **Default**.
 2. Click **Documents**.
4. Click the highlighted **Continue/Next** button (the main button shown to proceed).

Example prompts you may see:

- **Upload**
- **Default**
- **Documents**

Step 4 – Enter the asset details

1. Fill in the required information in the input fields shown on the form.
2. Continue entering details until all required fields are completed (you may see multiple required fields).

Tip: If a field is required, complete it before moving on (required fields are often marked with an asterisk `\*` or an indicator).

Step 5 – Upload and review

1. Click **Upload** to submit the asset.
2. After uploading, you may see the new asset listed. Click the asset entry (for example, an item number such as **142598**) to open or review it.
3. If you do not want to proceed with the current view or action, click **Cancel** to exit.

Screenshot label (if available): Upload confirmation / asset list

Step 6 – Log out

1. Open the user/account menu (usually in the top navigation).
2. Click **Logout** to sign out.

5. Troubleshooting

| Issue | What you can do |

|---|---|

| You can't sign in (password not accepted) | Re-enter your password carefully (check Caps Lock). If available, use **Forgot Password?** to reset it. |

| You don't see the **Upload** button on the Assets page | You may not have upload permissions. Contact your Mirrix admin or support to request access. |

| Upload won't complete or seems stuck | Refresh the page and try again. Check your internet connection and try a smaller file if possible. |

6. Tips (Optional)

- Prepare your document details (title, description, category, etc.) before starting to speed up the upload.
- If you manage multiple asset types, double-check you selected **Documents** before uploading.
- After uploading, open the asset from the list (e.g., by clicking its entry) to confirm you uploaded the correct item.

7. Contact Support

If you still can't upload an asset or access the Assets page:

- Contact your organization's Mirrix administrator, or your internal IT/help desk.
- If you have a Mirrix support portal, search for: **"Mirrix upload asset"** or **"Assets upload Documents"**.
- When reporting an issue, include:
 - The page you were on (e.g., `/login`` or `/assets``)
 - The action you were trying to complete (e.g., "upload a document")
 - Any on-screen message you received
