

Title

User Guide: Uploading and Managing Assets in Sample Application

1. Purpose

This guide helps users log in to the Sample application, upload assets, enter required information, manage uploaded files, and log out successfully.

2. Scope

This guide is intended for all Sample application users who need to upload and manage assets using the web interface, especially in a development environment.

3. Prerequisites

- Access to the internet and a web browser.
 - Valid username or email and password for Sample application.
 - Asset files ready for upload.
 - Basic familiarity with navigating web pages.
-

4. Steps

Step 1 – Log in to Sample Application

1. Open your web browser and go to <https://dev.mirrix.app/login>.

****Screenshot label:**** Sample Login Page

2. Enter your username or email address in the username field.
3. Enter your password in the password field.
4. Click the ****Login**** button to sign in.

****Screenshot label:**** Login Button on Login Page

Step 2 – Navigate to Asset Upload Page

1. After logging in, go to <https://dev.mirrix.app/assets>.

****Screenshot label:**** Assets Overview Page

2. Navigate to <https://dev.mirrix.app/assets/upload>.

****Screenshot label:**** Asset Upload Page

Step 3 – Start Uploading Files

1. Click the ****Upload**** button to begin.
2. Choose one of the following:
 - Drag your file(s) into the upload area to start uploading.
 - Click ****Select files**** to browse and select files from your computer.

****Screenshot label:**** File Upload Area with Drag and Select Options

3. Click the highlighted button to proceed to the next step.

Step 4 – Enter Required Information (First Set)

1. Fill in the required information in the input field(s) shown.
2. Click the highlighted button to continue.
3. Click ****Default**** to proceed.

4. Click **Documents** to select the asset category.

5. Click the highlighted button to proceed.

Step 5 – Enter Required Information (Second Set)

1. Enter all required information in the input fields provided (three fields).

2. Click the highlighted button to continue.

Step 6 – Enter Required Information (Third Set)

1. Enter all required information in the next set of input fields (three fields).

2. Click **Upload** to finalize the upload process.

Step 7 – Manage Uploaded Asset

1. Navigate to <https://dev.mirrix.app/assets/142603> to view the uploaded asset.

2. Click on **142603** to open the asset details.

3. Choose from the following options as needed:

- Upload
- Collections
- Folders
- Workflows
- Products
- Analytics
- PDF on Demand

4. Click the highlighted button to proceed with your selection.

Step 8 – Log Out

1. Navigate back to <https://dev.mirrix.app/login> if needed.

2. Click the **Logout** option to sign out of the application.

5. Troubleshooting

Issue	Possible Cause	Solution
-------	----------------	----------

--	--	--

----- ----- -----

Cannot log in	Incorrect username or password	Verify credentials and try again. Reset password if needed.
---------------	--------------------------------	---

File upload fails or stalls	Unsupported file format or size	Check file format and size limits. Try a different file.
-----------------------------	---------------------------------	--

Required fields not accepted	Missing or invalid input	Ensure all required fields are filled correctly before proceeding.
------------------------------	--------------------------	--

6. Tips

- Use a stable internet connection to avoid upload interruptions.
- Prepare all required information before starting the upload process to save time.

- Use descriptive file names to easily identify assets later.
 - Log out after completing your session to keep your account secure.
-

7. Contact Support

If you encounter issues not resolved by this guide, contact Sample application support:

- Visit <https://dev.mirrix.app/support>
- Search the knowledge base with keywords like "login issues," "upload problems," or "asset management."
- Email support at support@mirrix.app for personalized assistance.
